The Arab African Council for Integration and Development (AACID) SPECIAL CONSULTATIVE STATUS ECOSOC - UN is an Arab-African non-governmental organization with a legal personality and includes a group of personalities, organizations, institutions and companies from more than 50 Arab and African countries of scholars, sheikhs, princes, ministers, businessmen and women from countries of the world, specialized in economic, investment, scientific, cultural and social aspects and has close contacts and relations At the level of governments and international organizations, and holds the approvals and sponsorships of the governments of countries and international organizations of the United Nations.

The Arab African Council for Integration and Development holds local and international conferences and seminars for trade exchange and industrial investment, scientific conferences, and discusses economic and scientific work mechanisms to serve countries, to develop human and natural resources.

The general vision of the AACID: The Arab African Council for Integration and Development is an Arab-African non-governmental organization with a legal personality working in the areas of comprehensive development, adopting skills, developing capabilities and striving to achieve the goals of sustainable development in the United Nations 2030.

AACID goals:

1. Contributing to humanitarian and development fields that achieve the interest of the Arab and African peoples without discrimination based on gender, religion, color or culture.
2. Working on discovering the creativity and ability to contribute to the development and dissemination of the distinguished thought of the human resource in the Arab and African countries.
3. Developing the competence of senior leadership performance in training curricula according to the latest in advanced science.
4. Managing scientific knowledge and intellectual capital, maintaining the continuous development of human minds, and achieving integration between knowledge, ability and will.

5. Contribute to the transformation towards the application of information technology in publishing, receiving and electronic awareness.
6. Working on investing in management thinking in a way that suits Arab and African societies and employing them for their benefit.
7. Acquiring knowledge and skills, achieving a decent standard of living and enjoying human rights to the maximum.
8. Strengthening economic, social and cultural cooperation between the Arab and African world.
9. Embody the spirit of communication, solidarity and equality between Arab and African countries.
10. Work to develop youth and sports activities to serve Arab and African youth.
11. The council works to raise the mental capacity of the individual through training courses with modern scientific methods developed specifically for the council

Council work plan for the year 2021-2022 in the African continent

The final statement of the official tour of the official delegation of the Arab-African Council and the Swiss organization Rafai to Central Africa: The tour took place from the date of last October 17 to November 01, and the tour was based on an official invitation addressed to the Council and the organization by the Prime Minister of the Republic of Congo-Brazzaville, and Prime Minister and Minister of Health of the Democratic Republic of Congo in Kinshasa, The delegation met with senior officials in the Presidency of the Republic and the Presidency of the Prime Ministers in both countries, the Congo Brazzaville in Brazzaville and the Democratic Republic of Congo in Kinshasa, as well as with more than 11 ministers in both countries, in addition to field visits to many hospitals and facilities to find out the current situation and assess what needs to be done with it ,In addition, there were many official meetings in the Republic of Congo-Brazzaville in which they discussed the possibility of cooperation between the Council and REFAI Organization on one side and the Government of the Congo in the other side , with the Minister of Energy and Water, the Minister of Higher Education, and the Minister of Health, knowing that the visit began in the Prime Minister Cabinet with the First Counselor and the chief of cabinet of the Prime Minister, as the invitation to visit Brazzaville was directed to the Council and REFAI by the Prime Minister as an official visit to the Congolese government in Brazzaville . This tour resulted in the signing of many cooperation protocols with many ministries for different sectors, including health, agriculture, infrastructure, social affairs, vocational rehabilitation, energy and others. Construction of several hospitals, rural medical centers, hospitals and a mobile radiology center, as well as a project for farms and animal husbandry, starting with a first phase of one million hectares, which will include 200,000 families ... and many other projects , also several areas of cooperation between the Romanian government, universities and the two Congolese governments through the Council and the Organization were also discussed in many areas, including scholarships and qualifications . Also, many television interviews were broadcast on local channels after each meeting with each Minister .

ARAB AFRICAN ASIAN FIRST FORUM FOR INVESTMENT JUNE 4, 2016 CAIRO

The Arab African Council for Integration and Development (AACID) believes in the importance of investment as a fundamental factor in the development and economic advancement, and given the orientation of countries towards Africa, our interest in inviting and encouraging investors and businessmen in countries of the world to direct their investments to Arab and African countries, which was welcomed and rapid response in the presence of delegations from several countries Including a high-level delegation from the Chinese government, senior businessmen and women, in addition to the participation of several countries who form various governmental and non-governmental sectors in order to see the opportunities for participation on the ground, whether with the governmental or private sector. Chinese investors and businessmen came with several projects that serve various aspects of development, including commercial and industrial complexes, such as the famous global market (China Mall), supporting and establishing tourism projects, providing assistance and partnerships in electricity with the government sector with an open financial ceiling, in addition to the transfer of advanced technology in various types of production lines. A program of field visits was made to the members of the delegation to the economic zone in the northwestern Gulf of Suez in AinSokhna (TEDA Free Zone) to attract industrial investments on an area of 6 square kilometers. The Chinese delegation met with CEO of TEDA Wei Jianqing, and expressed its admiration for the exceptional investment facilities available. To attract investment to theregion through businessmen and investors and have shown their willingness to participate in investment in the fields of manufacturing, renewable energy, electronic industries, chemical industries, cars and electrical appliances.

The Chinese company "Teda Investment", the owner of "TEDA Egypt", signed in December 2013 - a contract to develop 6 square kilometers in the economic zone northwest of the Gulf of Suez with the main development company of the Northwest Suez District Authority, the main developer of the area, in 3 stages of 2 km 2 In each stage, it amounts to \$ 30 billion. On the other hand, the council was keen on making the first "Arab-African-Asian Investors Forum for Businessmen and Women" which brings together Chinese, Egyptian, Arab and African investors, under the slogan "Egypt deserves" which was covered in the media by many satellite channels, including Al Mehwar and Al Nahar channels and a number of media professionals. And the journalists at the Pyramids Park Hotel on May 2, which was attended by a group of businessmen from different countries, and a special meeting was held between both parties, where their important investment projects were proposed, resulting in an agreement to adopt the Chinese side to support some investment projects in the field of technology transfer. The developed lines of production and manufacturing of all kinds of textiles, and the production lines of concentrated sugar from the Stevia plant (whose concentration equals 300 times the regular sugar in addition to being safe, healthy and risk-free sugar, and is a promising economic alternative instead of traditional sugar), as indicated by one of the manufacturers of the Lod lamps supplied inside China is ready to establish a high-quality economic factory for the LED lamps on the land of Egypt, and the mechanisms for dealing with all these investments have also been discussed by the investor with the Central Bank. Rin of the Chinese as well as through Egyptian banks approved by the government and the necessary facilities.

CAIRO FROM 29 TO 30 AUGUST 2016/ ARAB AFRICAN ASIAN FORUM II FOR INVESTMENT

At the conclusion of the AACID Conference, it ended its activities at the Great Celebration Hall in Al-Gomhoria newspaper, which was held over two days, attended by a group of investors from China, Egypt and Arab countries, and more than 400 investors, including businessmen, businesswomen, and factory owners. The investments made have diversified in several areas, including recycling waste, manufacturing electricity from solar energy, wind and other natural resources, as well as establishing a car manufacturing plant, establishing a large mall, fish farms, water desalination, a factory for manufacturing oil pipeline valves, as well as coordinating the establishment of the Chinese city on an area of more than one million square meters. It includes the Chinese market with an area of 450,000 square meters.

INTERNATIONAL CONFERENCE TO SUPPORT AND DEVELOP AGRICULTURE 18 SEPTEMBER 2016

Under the auspices of the Arab African Council for Integration and Development (AACID), the conference (Support and Development of Agriculture in Egypt and the Arab World) was held in the presence of Professor Mahmoud Sherif, Chairman of the Board of Directors of the Green Kingdom Company for the Cultivation of Green Gold Stefa, at Safir Hotel, Dokki, Cairo.

CONFERENCE OF THE UNION OF CIVILIZATIONS OF THE NEAR EAST / CAIRO 26-27 DECEMBER 2016

The activities of the second international scientific conference of the Council of the Federation of Ancient Near East Civilizations, which was held on December 26 and 27 under the patronage and presence of Dr. Ashraf Al-Shehi, Minister of Higher Education and Scientific Research, the Arab African Council for Integration and Development and the Federation of African Kingdoms, ended at the headquarters of the Academy of Scientific Research and in the presence and patronage of Professor Dr. Qais Hatem Al-Janabi and some international and local personalities. Among the most important recommendations of the conference is to open horizons for cooperation with countries concerned with the civilizations of the ancient Near East. Minister Al-Shehi pointed out that heritage preservation is the preservation of the nation's identity, stressing that the nation's adherence to its cultural heritage is the guarantee for the nation's adherence to its identity, in light of globalization that seeks to impose its control on the world. And that this conference is a good opportunity to achieve communication between scientists and researchers in universities and bodies based on archeology in the regions of the ancient Near East. 18 papers were discussed during the conference over two days. It is worth noting that the Federation of Ancient Near East Civilizations includes in its membership scholars from Egypt, Sudan, Libya and Yemen. Oman, Qatar, Bahrain, the Emirates, Kuwait, Jordan, Syria, Lebanon, Palestine, Turkey, Iraq and Iran, as well as scholars of this specialty in Europe, America and Australia.

CONFERENCE OF APPLICATIONS OF THE PYRAMIDS OF SCIENCE IN EDUCATION 15 MARCH 2017 / CAIRO

Conference on the world's first collective application of Al-Ahram sciences to basic education

The conference was attended by leaders of scholars, participating bodies, governorates and educational leaders. After the celebration, a high-level delegation of Russians came to Cairo to discuss the dispatch of envoys from the Russian Federation to study pyramids sciences and transfer the application. To Russia and the Russian Commonwealth countries. The scholars emphasized that the project is considered a revolution in educational sciences, a great opportunity for human studies, studies and research in a large number of fields, and a great opportunity for researchers and scholars.

FIRST INTERNATIONAL CONFERENCE ON EDUCATIONAL GUIDANCE

Under the auspices of the Arab African Council for Integration and Development, Ain Shams University in Cairo hosted for two days the first international conference for educational guidance “between reality and expectations”, which was organized by the Academic Center for Educational Training in the presence of about 100 Arab personalities. For his part, Dr. Issa bin Humaid Al-Shammari, President of the Educational Trainers Association, confirmed that the conference is the first of its kind at the Arab level in terms of specialization, indicating that it will be the first for a number of subsequent conferences, which will be in the service of counselors, educational guides and counseling in general. "Al-Shammari" added that the conference will discuss many issues related to educational guidance from all sides, noting that it is an opportunity for those interested in psychological, family and educational counseling due to the presence of a group of Arab scholars and professors of guidance. A number of personalities were honored with honorary doctorates, and the official announcement of the accession of the Academic Center for Educational Guidance and Training to the Arab-African Council for Integration and Development.

UNITED NATIONS ECOSOC SCS ISEA JANUARY 29 TO FEBRUARY 7, 2018

Within the fifty-sixth session at the United Nations and with the participation of members of the Arab African Council for Integration and Development, the High-level Financial Technology Committee chooses 20 international personalities to oversee the implementation and approval of the Mubi Dollar project in all Arab, African and world countries. Ambassador EmadTareq Al-Janabi, President of the Arab African Council for Integration and Development (AACID), extended his thanks and appreciation to his partners His Excellency Prince Henry Kenyu Kim, President of the ISEA Foundation, and Queen Sheba, President of the Federation of African Kingdoms (AKF) (ISEA UN-HLFTC)

During the conference, 4 personalities from the Arab African Council for Integration and Development (AACID) were selected from among 20 personalities, and the association in sustainable development announced the appointment of a high-level financial technology committee to oversee the implementation and approval of the Mubi Dollar project in all Arab and African countries and at the global level as well.

TRAINING CONFERENCE IN THE ARAB WORLD 10-11 MARCH 2018 CAIRO

Under the auspices of the Arab African Council for Integration and Development and with a distinguished international presence, the works of the International Conference "Training in the Arab Nation between Hope and Pain", organized over two days 10-11 / 3/2018, were concluded by the Arab African Council for Integration and Development headed by Ambassador Imad Tariq Al-Janabi. And under the supervision of the Educational Trainers Association, one of the council's bodies, headed by Dr. Issa bin Hamad Al-Shammari from Saudi Arabia, in the Naguib Mahfouz hall at Al-Ahram Foundation. With a wide international participation from Arab academics, ambassadors and prominent personalities, civil society organizations, and various media, the conference was attended by the advisor of the President of the Republic, Abdel Fattah Al-Sisi, Dr. Ahmed Tram, Minister Al Hayatami, and a number of ambassadors and intellectuals from Arab countries.

ARAB AFRICAN INTERNATIONAL CONFERENCE ON INVESTMENT 4-5 MAY 2018 CAIRO

With the participation of 25 Arab and foreign countries and more than 400 personalities in the Arab-African International Investment Conference for Businessmen and Women under the slogan Egypt Treasuries of the Land, which was held in Cairo Hall of the Republican Guard for the period from 4-5 May 2018 some photos of the conference. The preparatory conference for the activities of the Arab-African International Investment Conference concluded Business men and women under the slogan of Egypt are Treasuries of the Land headed by Ambassador Imad Tariq Al-Janabi Delegations from South Korea, headed by Prince Henry, and a group of Arab and international delegations, Dr. Muhammad Qabati, Minister of Tourism of the Republic of Yemen, Dr. Mona Mahrez, Deputy Minister of Agriculture, and representatives from ministries participated in the conference.

The Arab African Council for Integration and Development is organizing the Arab-African International Conference for Investment for businessmen and women under the slogan "Egypt is the treasury of the earth" under the auspices of the Ministry of Investment and International Cooperation, the Ministry of Agriculture and the United Nations, and with an international presence that exceeds 35 Arab, African and European countries, and with the participation of many international institutions to review investment opportunities in Egypt.

Ambassador Imad Tariq Al-Janabi, Chairman of the Arab African Council for Integration and Development, announced the Arab Investment Portal, as a nucleus for promoting investor projects to increase exports between Arab and African countries.

He added, during his speech at the Arab African International Investment Conference, that the council is working to coordinate the establishment of the first car manufacturing factory in Egypt, and explained that the project includes manufacturing the first car in Egypt with Egyptian hands and expertise, after research and studies carried out by a working team.

The cost of manufacturing a car in Egypt is less than 50% of the price of the car sold in the market, and this experience will not be the first because the car industry in Europe and Germany in particular, the cost of manufacturing the car reaches 75% of its price at the time of sale.

Al-Janabi pointed out that the council is about to launch the Nile International Peace Prize, adding that “Egypt is the source of civilizations,” noting that what the council is doing “is the optimal representation of the role of civil society organizations.” With the participation of many international institutions, to review investment opportunities in Egypt.

INTERNATIONAL CONFERENCE FOR THE CONSTRUCTION AND DEVELOPMENT OF TRAINERS 12-14 OCTOBER 2018 CAIRO
